# RALLY GUIDE 1

## 1 INTRODUCTION / WELCOME

*Dear participants, dear teams and guests,*

*more than 90.000 enthusiastic fans from over 50 countries, thrilling rally action, beaming winners and, in the end, an impressive signal of how sport can send a boundless signal of international understanding and cohesion in the heart of Europe: The second edition of the Central European Rally (CER) on the FIA World Rally Championship (WRC) calendar last year lived up to all expectations. The unique concept in the rally calendar of three countries working hand in hand as organisers was a complete success. Austria, Germany and the Czech Republic are working hand of an innovative event 'Beyond Borders'. After the premiere in 2023, we immediately made a good name for ourselves among the rally strongholds. And visitors, teams and officials in particular were able to enjoy what characterises Austrian, Bavarian and Bohemian hospitality.*

*From the service park of the event in the exhibition centre of the lovely three-river-city of Passau, the teams will once again set off on challenging routes from 16 to 19 October. The drivers will tackle more than 300 kilometres of special stages. The best drivers in the world are on the road in WRC cars powered by 100 per cent synthetic fuel. Motorsport wants to and must - as it has always done throughout its history - play a pioneering role when it comes to the drive technologies of the future. More than ever, we have a responsibility to make motorsport future-proof with innovative and sustainable concepts. And so it fits perfectly, that the ADAC Opel Electric Rally Cup – the first fully electric rally trophy in the world - complements the program with its final run of the championship in 2025.*

*And so it is more than ever our ambition to create a cosmopolitan, modern and trend-setting event in the heart of Europe.*

*We wish all participants, team members, organisers, guests and visitors a good, exciting and accident-free time and much success at the Central European Rally 2025.*

*We look forward to welcoming you as our guests in October!*

*Kind regards,*

*Uwe M. Schmidt  
Clerk of the Course*

# RALLY GUIDE 1

## 1.1 ENVIRONMENTAL POLICY

The organizing team of the Central European Rally 2025 is committed to the central mission

### AVOIDING AND REDUCING EMISSIONS

a commitment defined in the company's sustainability strategy for all areas of the event. Our vision is to become one of the most sustainable events in the WRC calendar. We are creating standards in sustainability management that will inspire small and large rally events worldwide.

Our primary objectives are as follows:

- To optimise spectator flow through the implementation of a smart guidance system.
- To avoid and reduce CO2-emissions in all areas of the event.
- To avoid, reduce and recycle waste.
- To create regional and social value.

We are aware of the environmental challenges the world is facing today, and we recognise climate change as a significant threat to our current global situation. As the organiser of the Central European Rally, we accept our responsibility and are committed to minimising our environmental impact on the region where the rally takes place. To this end, we have developed a sustainability strategy which we believe can help us achieve our goals. This strategy is based on five main areas:

- Spectators
- Participants
- Organization
- Waste & Resources
- Regional & Social Value

For each area, we have defined several objectives and targets based on the SMART model and focused on key impact areas of the FIA Environmental Accreditation Programme.

All measures will be widely communicated to spectators, residents, local authorities, suppliers, the entire rally organization and the teams.

In 2023, we successfully obtained the 3-star rating of the FIA Environmental Accreditation Programme. Building on this achievement, we are committed to further enhancing our sustainability efforts in the years ahead. Utilising the 3-star rating as a benchmark, we will continue to refine and implement our strategy, ensuring the successful realisation of our objectives and targets.

The high standards we set for ourselves are also expected of our partners and sponsors. As a result, we have established a procurement policy that we will adhere to. In the future, we will give preference to organisations and companies that meet the standards of our policy.

In this sense, the Central European Rally organising body is committed to complying with all relevant, applicable legal and regulatory requirements regarding the environmental aspects of our event operations.

Our sustainability policy and objectives will be subject to regular review and adjustment. We will implement a control and monitoring system to ensure that our organisation achieves its vision and sustainability strategy goals.

Our environmental policy is following the WRC “Beyond Rally “-principles.

# RALLY GUIDE 1

There will be one service park during the Central European Rally 2025, located at the Messepark Kohlbruck in Passau.

For trucks with tent extensions and other temporary structures, compliance with legal requirements regarding structural integrity, TÜV inspection, and approval of temporary buildings is necessary.

The structures planned for setup in the Service Park must adhere to the rules and regulations established by the authorities, with inspections to be expected.

Particular attention should be given to the legal obligations related to the notification and mandatory approval of temporary structures as outlined in §72 of the Bavarian Building Code (BayBo):

- Service marquees (e.g., from Stegmaier) attached to a semi-trailer or truck with a surface **area greater than 200 sqm** are classified as temporary structures under the Temporary Structures Guidelines ("FIBauR"). Such structures planned for the Service Park in Passau must have model approval and an inspection log.
- The conditions specified in the inspection log, such as weight limits, must be strictly followed. The organiser cannot provide the necessary weight application details.
- The local building control authority (Stadt Passau) is responsible for approving these structures. A written application must be submitted to [pgeipel@centraleuropeanrally.eu](mailto:pgeipel@centraleuropeanrally.eu) no later than 10 days before the scheduled setup, using the related form found on the download section on the CER website. Any fees related to the approval process must be settled directly with the local authority (Stadt Passau).

The documents /required for this purpose (model approval/ construction documentation) must be submitted in **GERMAN LANGUAGE**.

To make an appointment with the building organisation authority please contact:

Stadt Passau  
Bauordnungsamt  
Rainer Hatzesberger  
Rathausplatz 3  
94032 Passau

Tel: +49-851 396- 301

[fabian.probst@passau.de](mailto:fabian.probst@passau.de)

**On arrival, from Saturday, 11 October 2025 to Wednesday, 15 October 2025 - before entering the service park – every team must register at the service park info-point. The service park crew will allocate the teams to their service bay.**

Inside the service park any washing of the trucks is strictly forbidden.

When entering the service park, all waste- and wastewater tanks should be empty. Should this not be possible in an exceptional case, the organizer can arrange the disposal of the tank's contents which will be invoiced separately (100€ per m<sup>3</sup> plus 300€ transport costs + VAT).

The teams may bring their auxiliary vehicles to the big parking garage next to the service park. **Any parking of team vehicles in the service park is strictly prohibited! Wrong parking cars will be towed immediately and removed from the service park. The incurred expenses (300€ plus tax) have to be paid instantly.**

Any other car with a team-related car sticker (e.g. service, recce cars, manufacturer's meteo crew, route note car) may and must be parked in the parking area P6 or in the parking garage with the parking garage pass.

Competitors wishing to use a joint service area with another competitor must inform the organiser until the deadline as specified under Point 3 at the latest. The organiser can however not guarantee that all requests can be considered.

**The service park area is during the whole event an absolute no-fly zone for drones.**

## 8 HELICOPTER USE

### 8.1 REGISTRATION PROCEDURE

The registration of all helicopters operating in the rally area is to be made by the organiser.  
In compliance with the FIA safety regulations and the local Air Traffic Authority, every helicopter flying in support of the rally must be registered with the organisers and be familiar with the special flight guidelines.

When registering a helicopter, a power of attorney must be enclosed authorising the organiser to apply to the relevant authorities for the external landing sites for the registered helicopter.

All landing places, including the areas of the service park and of the special stages, will be described in maps and in the helicopter guidelines, including all the GPS positions. There is no clearance to land at any other location along the special stages. The landing permission for the above-named landing places is only valid on the respective day the SS is taking place.

Attendance at the pilots' briefing as specified under point 3 of this Rally Guide is obligatory for all pilots.  
In case of non-participation there is the possibility to arrange an individual online briefing on 9 or 10 October 2025 for an additional fee of 250 € (19 % VAT to be added).

All documents, manuals, instructions will be distributed on the organisers website. When participating in the online briefing, the password will be provided at the beginning of the briefing.

The identifications will be handed out from Thursday, 16 October 2025 at the landing site responsible at the Rally Office, Passau.

All pilots must be in possession of a valid professional pilot licence CPL (H).

After registration and payment of the fee of 3.500 € (19% VAT to be added), all pilots will receive additional information until one week before the event at the latest. As correspondence will be made by e-mail, an e-mail address must be specified on the registration form.

**The registration closing date is specified under point 3. Any late application will result in a surcharge of 10% to be added to the aforementioned fee.**

### 8.2 APPLICATION FORM FOR REGISTRATION

The registration application form must be sent **per e-mail** to:  
[pgeipel@centraleuropeanrally.eu](mailto:pgeipel@centraleuropeanrally.eu) until the deadline as specified under point 3 of this Rally Guide at the latest.  
Registration forms are available on the organiser's website ("Forms") or upon request.

**It is compulsory to add the AOC number (Air Operator Certificate) on the application form and to attach a copy.**
